(c) This Agreement, together with any other documents incorporated herein by reference, and related schedules, constitutes the sole and entire agreement of the Parties to this Agreement with respect to the subject matter contained herein, and supersedes all prior and contemporaneous understandings, agreements, representations, and warranties, both written and oral, with respect to such subject matter.

(d) This Agreement may only be amended, modified, or supplemented by an agreement in writing signed by each Party hereto, and any of the terms thereof may be waived, only by a written document signed by each Party to this Agreement or, in the case of waiver, by the Party or Parties waiving compliance.

(e) This Agreement shall be governed by and construed in accordance with the laws of the State of New York without giving effect to any choice or conflict of law provision or rule.

Background

GETTR is a social media platform that intends to fill in a gap created by the widespread suppression of conservative voices by Big Tech, starting in the USA but with effect in many other countries around the globe.

Given the current vitality of the conservative movement in Brazil, the country corresponds to nearly 15% of GETTR's usage.

Jason Miller, GETTR's CEO, has plan to set up shop in Brazil and capitalize on the spontaneous growth the platform has seen in the country so far. Although the platform already garners a sizeable usage in the country, it appears that a locally-run operation, along with an appropriate market launch, will accelerate growth in considerable fashion.

Doing business in Brazil has very particular intricacies. In the common vernacular, it is said that "Brazil is not for amateurs," implying that it takes someone with deep knowledge of the culture, the legal system, the politics, the customs and the norms in order to succeed in the country.

Main Objectives

The purpose of this consultancy is to offer the necessary guidance for GETTR not only to avoid common pitfalls of the Brazilian business and political landscape, but also to help it thrive in and from it.

Project Summary

This project intend to cover GETTR's needs over the remaining months of the calendar year of 2021, comprising the following phases:

- I. Strategic Planning
- II. Setup of Operations
- III. Launch
- IV. Advisory

He returned to Brazil to become the first General Manager of 9ine, a sports marketing agency owned by soccer legend Ronaldo and the WPP Group and later ventured in two sports startups before moving back to the corporate world. He also advised two members of the Moreira Salles family (shareholders of Itaú Unibanco) in their investments at Botafogo, a top tier soccer club in Rio.

Marcelo helped Yahoo Brazil transition to a player in the programmatic advertising world and later became Director of Digital Strategies at Estadão, one of the top newspapers in the country – where he established a well-oiled machine of digital subscriptions that broke records.

Marcelo recently joined Hotmart, the world's top end-to-end platform for digital products (mainly online courses), which recently broke the US\$ 1 billion valuation mark. He will perform as the scale-up's Global Head of Growth.
